the South than Jackson.

Frantz, of the Brandon Republican, is about to purchase a power-press with a view to enlarging his paper.

The Commercial states that the cholera has entirely disappeared from satisfaction that we won't, as yet, do Yazoo City.

Gen. Hood, when in Austin, Texas, the other day, was waited on by a committee of the Legislature, and escorted to a sent of honor in that body. All the members rose as the crippled hero entered.

FOR MAGISTRATE,-It will be seen that Mr. J. H. Young is a candidate for magistrate in this beat.

A fellow named Joseph Epstein, has recently been arrested in New York as a professional beggar, and who is possessed of real property to the amount of \$25,000. He is minus both legs, and hence very easily imposed on the charitably disposed.

Holbrook, the Democratic candidate for Congress in Idaho, has been elected by a thousand majority.

The New York Herald styles the Disunion Convention which assembled in Philadelphia on the 3d, "The First Grand National Convention of Nigger Worshippers."

There has not been a case of cholera in Cairo since the 26th of August.

The catholic bishop of the Memphis diocese, in view of the prevalence of cholers, allows the use of flesh meat on Fridays, and other established days of abstinence.

Mother Angela, sister of the late Archbishop Hughes, died in New York on the 5th, after a brief illness.

from cholera occurred in St. Louis during forty-eight hours ending on the

call to the Christian Church, Memphis. The Bulletin says of him:

declaimer or a finished orator, but as a reasoner he is clear, pointed, earnest, powerful, and is altogether an exceedingly attractive and interesting speaker. We congratulate the church and our city that he has consented to labor among us."

Governor Throckmorton, of Texas, in his message to the Legislature, sub-

erally published and discussed, I do not propose, in this communication, to do more than express my unqualified disapproval, as a whole, of the proposed article-it being, in my opinion' impolitic, unwise and unjust. say nothing of its harshness, the effect of the adoption of the third section of the article will be to deprive the State, for nearly a quarter of a centu ry, of the services of her ablest and best men, at a time and amidst circum stances which render these services more important than at any period of

A BROKEN HEART AND SUICIDE .- The Louisville Democrat states that a Miss Sue Blaine, daughter of Robert Blaine, Esq., of Bardstown, Ky., and an ele gant and accomplished young lady, recently committed suicide. The Democrat says:

"There is a sad story in connection with her self-immolation, Miss B. was engaged to be married to a young gentleman of Bardstown. His mother ojected with all the strenuousness misguided vehemence that fre

Auracterizes the female pafrs of the heart. Miss Tto these objections,

Radical Notions of Loyalty. We have quite a large number of Northern and Western papers on our Pour Ginson, Miss., Sept. 7, 1866. exchange list; and, in glancing over those of the radical stripe, we are often amused at their ridiculous efforts to convince their readers that the the teachers' convention, if it be the South is still too disloyal to be readmitted in the Union. If a Southern paper, in an unguarded moment, or in the honest expression of its opinion respect to the memory of the "lost is at once caught up and used as evithe mass of the Southern people. If a Southern legislature enacts laws having in view the special relief of the widows and orphans of deceased Confederate soldiers, such action is regarded as a disloyal discrimination, and is quoted to prove that we are not yet into full Union fellowship. The erection of monuments to perpetuate the memories of those who have fallen appears to be specially objectionable. and demonstrates conclusively to their to tie to. If a concert or other entertainment is given, and the proceeds thereof applied to any object that smacks of regard for dead, destitute, or maimed "rebels," it is at once noted in their loyal columns with the usual complimentary comments. But above all, when we intimate that the freedman is not yet a white man, and at tempt to show why he should not be elevated to the social and political position that God and nature has as igned the latter, this is especially re carded as evidence of our determin

ation not to accept in good faith the results of the war. Like drowning men, these Radicals catch at straws Possessing no magnanimity of soul they affect to think that our oaths and professions of loyalty are all sham and for selfish and party ends they deliberately and systematically misrepresent us. Their purposes are apparent, and we think the signs of the times indicate that they will be triumphantly defeated at the ballot box this fall. There was a time when it might have been considered "policy" to please the Radicals; but it seems that all efforts in that direction only tend to make them more arrogant, exact-

ing and intolerable. The more we concede, the more they demand. The conservative men of the country, North and South, have no more concessions to make. With the Consti-

Times of yesterday says:

The Teacher's Convention

COLLEGIATE ACADEMY.) Editor Clarion :- Allow me by the aid of your kindness respectfully to remonstrate against the time fixed for

22d of October. At that date ninety-nine of every hundred teachers will be engaged in organizing classes and giving the first impulse for the year to studious habits. It would be like a grand excursion for cause" and its thousands of heroes, it preachers on Sunday. Permit me to suggest that the best time would be dence that treason still lurks in this between Christmas and 7th of January. latitude, and that the "flag" and the at which time most schools give and "Union" are still objects of hate with all can give vacation. At the head for some years of one of the oldest and perhaps the oldest school in the State, would not feel at liberty to leave my post at the time suggested. Can you not make my views of the matter sufficiently reconstructed to be taken known or advise me to whom to write

on the subject? Truly your friend and servant, A. J. WHIGHT.

A SINGULAR CASE OF CHOLERA .-- A voman died of cholera in St. Louis. Mo., last Monday, whose finger had been previously amputated, and was preserved in liquor. On her deathbed she carnestly requested her husand to have the finger placed in the offin with her corpse. The husband last Wednesday had the body disinterred for the purpose of complying with her wish. Soon after he was attacked with cholera and died the same

AN IMMENSE PEACH.-The editor of the Atlanta Intelligencer has been presented with a peach grown on the ot of Mr. E. H. Williams of that city, neasuring ten and three fourths inches n circumference.

HORRIBLE ACT OF AN INSANE MOTH u. - An insane woman in Mobile, Ala. last week threw her infant into the red hot furnace of a rolling mill where the iron was fusing. The child, of course, was killed.—Northern Exchange.

The above, of course, is a lie. We venture the assertion that no such occurrence took place in Mobile last week, or at any other time within the nemory of the oldest inhabitant.

There are many people possessed of the kindest and best hearts, and the strictest feelings of honor, like the agate, rough in their exterior, but when polished display all their beautiful qualities; no one should ever ridicule them; since there are so many things more truly deserving ridicule the light agatom of the control of the con tution and Andrew Johnson on our than either awkwardness of manners

CHOLERA ANTIBOTE.—Hamlin's Mixture is said to be an excellent preventive of cholera. A gentleman who has used it with much success in Vicks-THE CHOLERA IN VICKSBURG .- The burg, has furnished us with the recipe, which is as follows:

2 oz. pulverized rhubarb, 1 oz. landanum,

I oz. spirits camphor. In a four ounce vial, taking from a half to three-fourth's of a teaspoonful every four hours, according to symp-

A tabular statement in the Times of the Lith gives the total interments the oblest, as it is one of the best, Let me ask this large and intelligent number 66 were negroes and 20 whites.
We presume this does not include the deaths in the military camp near the city.

Secured. The buildings are spacious, retired, and well-designed for academic purposes; while Port Gibson is noted for its beauty, salubrity, good order for its beauty, salubrity, good order.

Italtor I [Cries of "Never."] If I were dusposed to play the orator and deal in declaration to night, I would imitate one of the ancient tragelies, and would take William II. Sexard and bring him before you, and point you to the lacks and sears upon his person. [A voice, "God bless him."] I and good society.

The President continued in the strain of his previous arguments upon the issues in the coming contest, dwelling particularly upon the nature of the Freedmen's Bureau bill. The andience during the latter part of his speech listened quietly and attentively, and he concluded amid a perfect storm of

Other speakers followed, but in a little crowd dispersed

The Nigger-Worshippers' Convention at Philadelphia. The New York Herald of the 4th thus dis-

oses of this motley crew : The Convention of all the odds and ends f humanity, from the culaverous, pale faced and cauting New England parson to the blackest and strongest-smelling African, met in Philadelphia yesterday. The shades of color among the conventionists were as va-rious as the physiognomy and idiosyncrasics were remarkable. Such an aggregation of the freaks of nature, physically and mentally, in the shape of humanity, was never seen sefore. Our correspondents have given us graphic pen and ink sketches of some of the delegates and seenes, but it is to be hoped that one of our best photographers will not loss the opportunity of taking a picture of

the motley and extraordinary assembly.

In the call for this Convention it was des ignated "The Southern Loyalists" Conven-tion," but it is now called the "Loyalists called upon for the purpose of exchanging Convention." We do not know what the views, and ascertaining, if we could, who afterthought was which led to dropping the word "Southern." Probably the n found that it would be a very beggarly affair if confined to the "white trash" of the South, and therefore they concluded to fill up with Northern nigger-worshippers and give it a more general title. Now we know that according to the sense in which the radicals use the word "loyalist" there are but few white men in the South who come under the designation. They say themselves that the mass of the loyal people of the South are the blacks. It is hardly necessary to say that we and all the conservative people of the North differ with them as to the truly loyal white men of the South.

The really disloyal—the disunionists of

the present day-are these very radicals,

true uch are the bulk of the Southern white who accept in good faith the decision of the war and desire to live in harmony again un der the old flag. But, taking the declaratio of Jack Hamilton and his fellow convention of Jack Hamilton and in fellow conventionists, that the niggers form the great majority of the Southern loyalists, why, we ask, is not the Convention composed chiefly of these blacks! Why were not some of the distinguished and numerous Pompeys, Cesars, Scipios, George Washingtons and Tom Jeffersons chosen as delegates! If they are intelligent enough to have the elective franchise and are entitled to all the privi leges of white men, it is flat usurpation on the part of Hamilton, Parson Brownlow, Greeley and the rest of the Convention to keep them out. Why does not Fred Doug-las denounce this hypocrisy? He ought to see to it that these political tricksters do not use him and his race for their own beneto be most largely represented, but one of them ought to be the President of the Convention Or, if their white brethren of both sections have not confidence enough in the ability of one of the plantation niggers for the position, Fred Douglas ought to be un exceptionable. He has more ability that most of the white delegates, and certainly i the representative man of his race. It appears, however, that Fred Douglas is not even to be admitted as a delegate. He is to be ruled out on the pretence that he is a Northerner, but evidently on occount of his color. It is said that Gen. Hiram Walbridge, too, will not be admitted. Whether it is suspected that he has nigger blood in his

veins or not we have not learned.

The only lusiness of the Northern mean white at Philadelphia seems to be to swell the number and to make a noise. They are only sit in the Conventions as guests or Southern whites, taking no part in the official proceedings. It looks as if this had been so arranged in order to keep out Fred Douglas and other Northern blacks.

ing to attract attention in any other way these black and white radicals resorted to the showman's tricks. All this is really amusing, and we might dismiss the Conven-tion with ridicale; but the incendiary langoage of the speakers and the infamouabuse of the President deserves the severest condemnation. The language of these radi-cals was revolting and revolutionary in the extreme. They spoke of negro insurrection, violence, blood and revolution as boldly as ever the rebels did. We are not sure that it is not the duty of the President to arrest these new traitors and disunionists. One thing is certain—their proceedings will dis-gust every sensible and conservative citizen of the republic and give impetus to the re-action which has set in against them throughout the whole country.

The Dayton (Ohio) Empire says that a Miss Taylor, of Lebanon, was shot and instantly killed in front of her mother's residence by a young man named Leslie, who had been for some time paying his addresses to the young

He will be found there every KATERDAY, pro-tessionally to examine lungs with the Respirometer, for which his fee is three dollars; all advice free.

THEHISTORY

DR. SCHENCK'S OWN CAS

CURED OF CONSUMPTION.

AND HOW HE WAS

Many years ago, whilst residing in Philadelphia, had progressed gradually into the last stage of 'diminary Consumption. All hopes of my recovey being dissipated, I was advised by my physician, S. Parriek, to remove into the country. Mooresown, N. J. being my antive place. I was removed hither. My father and all his family had lived and lied there—and died of Pulonary Consumption. On my arrival I was put to bed, where I lay for many works in what was deemed a hopeless continue. Dr. Thornton, who had been my father a amily physician, and had attended him in his list liness, was called to see me. He thought my case them working their way, and penetrating every nerve fibre, and tissue of my system.

My longs and liver put on a new action, and the morbid matter which for years had accumulated and rritated the different organs of the body, was eliminated, the telescoles on my lungs ripened, and I expectorated from my lungs as much as a pint of yellow offensive matter subsided, the fever abated, the pain left me, the cough ceased to haraes me, and the exhausting night-sweats were no longer known, and I had refreshing sleep, to which I had long been a stranger. My appetite now began to return, and at times I found it difficult to restrain myself from eating too much; with this return of health; I gained in strength, and now an fleshy. I am now a healthy man, with a large healedederstrix in the middle lobe of the right lung and the lower lobe hepatised vith complete adhesion of the plenra. The left lung is sound, and the upper lobe of the right one is in a telerably healthy condition.

Consumption at that time was thought to be an exception.

se rapidly, that I determined to offer them to the public, and devote my undivided attention to Imag diseases. It truth, I was mext to forced to it, for people would send for me, far and near, to ascertain whether their cases were like mine.

For many years, in conjunction with my principal office in Philadelphia, I have been making regular professional visits to New York, Boston, Baltimore and Pittsburg.

For many years past, I have made as many as five himbred examinations, weekly, with the "Respirametor." For such examinations my charge is three dollars, and it enables me to give each patient the true condition of his disease, and tell him frankly whether he will get well.

three dollars, and it enables me to give each patient the true condition of his disease, and tell him frankly whether he will get well.

The great trason why physicians do not care Consumption is, that they try to do too numb; they give medicines to step the cough, to stoy the nights weals, heath fever, and by so doing they dorsage the whole digestive system, locking up the secretions, and eventually the patient dies.

The Pulmoule Syrup is one of the most valuable modicines known. It is nutrient powerfully tonic and healing in itself. It contains no opinm, yet it lossems the phlogm in the ironehial tubes, and nature throws it off with little exertion; one hottle frequently cures an ordinary coids but it will be well first to take a dose of Schenek's Mandrake Pills to cleanes the stomach. The Pulmoule Syrup is readily digrested and absorbed into the blood to which it imparts its healing properties. It is one of the heat preparations of iron in use; it is a powerful tonic of itself; and when the Scawed Impic disaslves the muons in the stomach, and is carried off by the aid of the Mandrake Pills a healily flow of gastrie juice, good appetite, and a good digestion foliow.

The Scawed Tonic is a stimulant, and none other

The Seaweed Tonic is a stimulant, and none other is required when it is used. It is pure and pleasant is required when it is used. It is pure and pleasant, no had effects like when using Bourbon Whisky, which disorders the stomach, torpors the liver, looks up all the secretions, turns the blood into water, dropsy sets in, and the patient dies suddenly. Bourbon Whisky is recommended now-a-days by almost every physician. Many patients that visit my rooms, both male and female, are stupilied with this poisen. The relief is temporary. If they cough, they take a little whisky: If they feel week and feeble, they take a little whisky: if they ga on in this way cinquiring more and more until they are bloated up and imagine they are jetting feeley. The stomach, liver, and fligestive powers are completely destroyed, and they loss their appetite for food. No one was ever cured of Consumption by this process, where cavilies have been formed in the lungs. A little stimulant is frequently beneficial to consumptives, such as pure brandy or good wines—in many cases. London porter or brown stout is moderate quantities; but flourbon whishy hastons on, instead of enving Consumption.

The SEA WEED TONIC produces having results, thoroughly invigorating the stomach and digestive system, and enabling it to eliminate and

onlis, thoroughly invigorating the stomach an gestive system, and enabling it to eliminate make into healthy blood the food which may be for that purpose. It is so wonderful in its e-liat a wine glass full will digest a hearty meal, a little of it taken before breakfast will give a to the stomach which few medicines possess mayor of dains.

THE

Mandrake Pills

May be taken with entire safety by all ages and conditions, producing all the good results that can be obtained from calousel, or any of the mercural modicines, and without any of their hirthial or injurious results. They carry out of the system the feculent and work out matters loosened and dissolved by my SEA WEED TONIO AND PULLUS SIEUP. It will be seen that all three or medicines are needed in most cases to train.
